

LONG COVID AND VACCINATIONS

Including topics such as who is most at risk, treatments and recovery

Talk (followed by Q&A) by

Dr Rama Vancheeswaran, FRCP, MSc Immunology, PhD

Talk organised by Schopwick Patient Participation Group
in association with Schopwick Surgery

Speaker Profile

Dr Rama Vancheeswaran is the Director of Research at West Herts Hospitals NHS Trust, where her research focuses on COVID-19, interstitial lung disease (ILD), cancer, pulmonary embolism (PE), asthma, and COPD.

With over 25 years of experience as a respiratory consultant, Dr Vancheeswaran provides expert care across a broad range of respiratory conditions, including chronic cough, asthma, COPD, bronchiolitis, bronchiectasis, cancer, thromboembolic disease, sleep disorders, all respiratory infections and ILD. Her approach emphasises collaboration with her patients, ensuring a holistic and personalised treatment plan.
